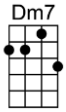
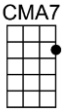
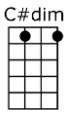
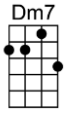
Intro: |  |  |  |   |

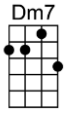


My eyes a-dored you, though I never laid a hand on you, my eyes a-dored you

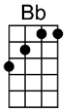


Like a million miles away from me, you couldn't see how I a-dored you

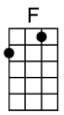
    


So close, so close, and yet so far

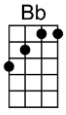
    
Carried your books from school, playin' make-believe you're married to me

You were fifth grade, I was sixth, when we came to be

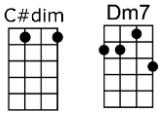
Walkin' home every day over Barnegat Bridge and Bay

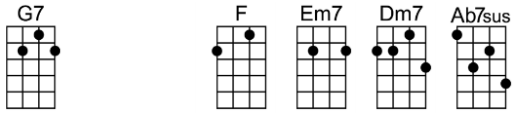
Till we grew into the me and you who went our separate ways

p.2. My Eyes Adored You

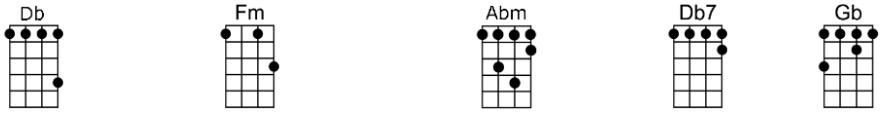
My eyes a-dored you, though I never laid a hand on you, my eyes a-dored you



Like a million miles away from me, you couldn't see how I a-dored you

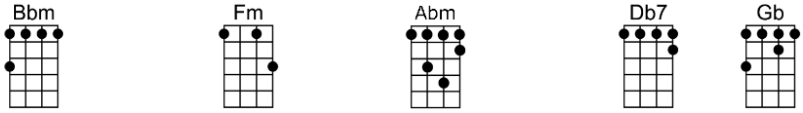


So close, so close, and yet so far



Headed for city lights, climbed the ladder up to fortune and fame

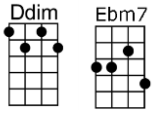
I worked my fingers to the bone, made myself a name



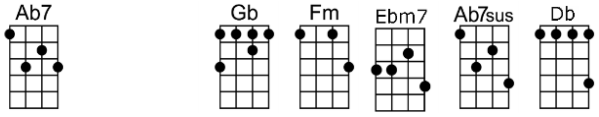
Funny, I seem to find that no matter how the years un-wind

Still I reminisce about the girl I miss and the love I left be-hind

My eyes a-dored you, though I never laid a hand on you, my eyes a-dored you



Like a million miles away from me, you couldn't see how I a-dored you



So close, so close, and yet so far
