

Please Break Me Gently

Tex Perkins

 B
Please break me gently

 A
Let me down slowly

 B
Just fake when you're leavin'

 A
So I don't even notice

<come to a total stop. Start playing again the the B chord>

 B
Take your name with you

 A
So I can forget you

 B
Shoulda known you would do this

 A
The moment I met you

 B
Just silently snuff me

 A
Could you carefully gut me

<come to a total stop. Start playing again the the B chord>

 B
Go and go on pretending

 A
For just one day longer

<notice that the chord pattern changes here>

 B
Don't tell me it's ending

 B
Cause it feels so much longer

 B
Please break me gently

 B
Please break me gently

 A
Let me down slowly

 B
Please break me gently

 B
Please break me gently

 B
Please break me gently

 B
Please break me gently

This tender, slow song is as
much a prayer as anything else.
