

# If You Don't Have Any Money

May Irwin (1899)

Well my luck is bad, worst that I had, seems to me I'm working awful hard

Nothing I do makes me a sou, I been losing money by the yard  
I went out to tell my Isabel that I was broke and didn't have a red  
When I told her that, she got my hat, showed me to the door and then she said

If you don't have any money don't you bother coming out

How you went broke is a story I don't want to hear about

Now if you gonna call me your honey bee, you'd better have some do re mi

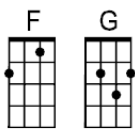

That's what you can't ever call on your baby without

And if you don't have any money don't you bother coming round

Cause honey you ain't the only poodle in the pound

Now you're gonna be welcome I hope to shout, just bring lots of money and spread it about

But if you don't have any money don't you bother comin' out

Well I'm working again, got me a ten, I took it to the races at the track

I had a sure thing and I started to sing, this is where I get my money back

I sat down and wrote my gal a note said I'd be there, at seven on the dot

I lost my bet, horse running yet, listen to the answer that I got

If you don't have any money don't you bother coming by

I don't wanna go if I've got to pay the waiter on the sly

Now if you're gonna send me those sweet bouquets, put a few greenbacks in the vase

That kind of love makes me sit right down and cry

But if you don't have any money don't you bother coming in

Cause honey, you ain't the only cracker in the bin

You say that you love me and you hope to die, remember what it takes to satisfy

And if you don't have any money, don't you bother, don't you bother comin' by
