

DIXIE GIRL - John Durrill

4/4 1...2...1234 (slow count)

Intro:

When I was a little girl in Dixie, I used to chase the fireflies

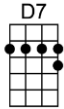

Then I grew up, and I started chasing the guys

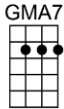

Teenage romance was just the thing, till I got in a family way

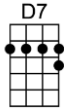

Now I'm on my own, and workin' in a cheap ca-fe

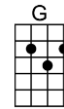

Waitin' on tables, and passin' myself a-round

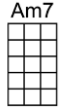

Dixie girl, you're the small talk in a small talkin' town

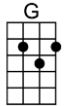

I fall in love every day with someone who ends up just drivin' a-way

While I'm dreamin' I'm a-with him, goin' down that west bound highway

One night a man walked in, he smiled, and ordered his coffee black

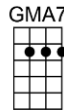

Took me for a ride in his brand new Cadil-lac

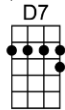

Told me he loved me with all his heart. I told him I loved him too

He said goodbye, Dixie, I'll be back for you

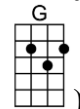

While I'm waitin' on tables, and passin' myself a-round

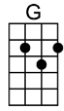

Dixie girl, you're the small talk in a small talkin' town

I fall in love every day with someone who ends up just drivin' a-way

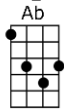

While I'm dreamin' I'm a-with him, goin' down that west bound highway

Now, all I do is read those Hollywood photograph magazines

Work my shift for tips, and live alone in my dreams

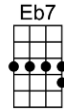

I'm a Dixie girl who prays someday she'll be a Delta queen

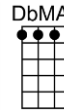

Find a good man who'll raise me and my baby

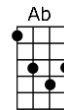

Still, I'm waitin' on tables, and passin' myself a-round

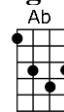

Dixie girl, you're the small talk in a small talkin' town

I fall in love every day with someone who ends up just drivin' a-way

While I'm dreamin' I'm a-with him, goin' down that west bound highway

While I'm dreamin' I'm a-with him, goin' down that west bound highway
